Windows Embedded Handheld desktop synchronization software

To install software onto a handheld powered by the Windows[®] Embedded Handheld operating system, to copy files between the handheld and an office computer, and to synchronize office applications, you must connect the handheld to a computer and use synchronization software. For the Windows 7 or Windows Vista[®] operating system, use the Microsoft Windows Mobile Device Center. For the Windows XP operating system, you will need to install the Microsoft[®] ActiveSync[®] technology from www.microsoft.com/download/en/details.aspx?id=15.

Insert SIM (Juno 5D only) and SD card

Charge battery for 4 hours

Apply screen protector

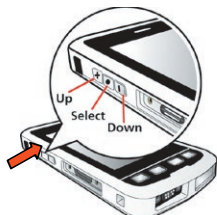

Turn handheld on, assign PIN

Attach wrist strap

Select language
